1. Are you able to confirm the name/type of database/crime management system that is used to log incidents and offences?

   ControlWorks

2. Within the said database/crime management system are there any specific markers or flags for 'football', 'football-related', 'football incident' and/or 'football violence and disorder'?

   Yes, football offences can be flagged

3. How do you provide the UK Football Policing Unit with information concerning football-related incidents and arrests for disorder and violence?

   All football offences are recorded via the national database Minerva and that is how it is shared with UKFPU
